

REPAIRING HOMES

Spitak, the epicenter of the 1988 devastating earthquake, is the city where Habitat Armenia will soon start implementing a project targeting the renovation of apartments.

Back in late 1990s, the Armenian Government allocated apartments to families who had lost their homes because of the earthquake. But these apartments lacked interior finishing: no doors and windows, no plastering, no flooring, etc. The very tough budget of families, who had lost all they had to the earthquake did not allow them to create decent interior conditions to grow their family in. It is those families that Habitat Armenia targets to serve in the coming months, and where your tithes will be used to make a difference.

Spitak city: Apartments with polished looks (above) house such interior conditions (below.)

The preparations of the renovation project in Spitak are almost complete. We anticipate starting selecting families in the spring. The anticipated time for the interventions to be completed is by the end of building season 2010.

For Haiti

Habitat Armenia staff prays for our brothers and sisters in Haiti, who are suffering because of the disastrous earthquake of January 12, 2010, as well as for the success of the disaster response efforts Habitat for Humanity is carrying out in Haiti.

We encourage our affiliate partners to support Habitat for Humanity Haiti with their tithes.

Nor Kharberd: One of the next destinations of HFH Armenia

The need

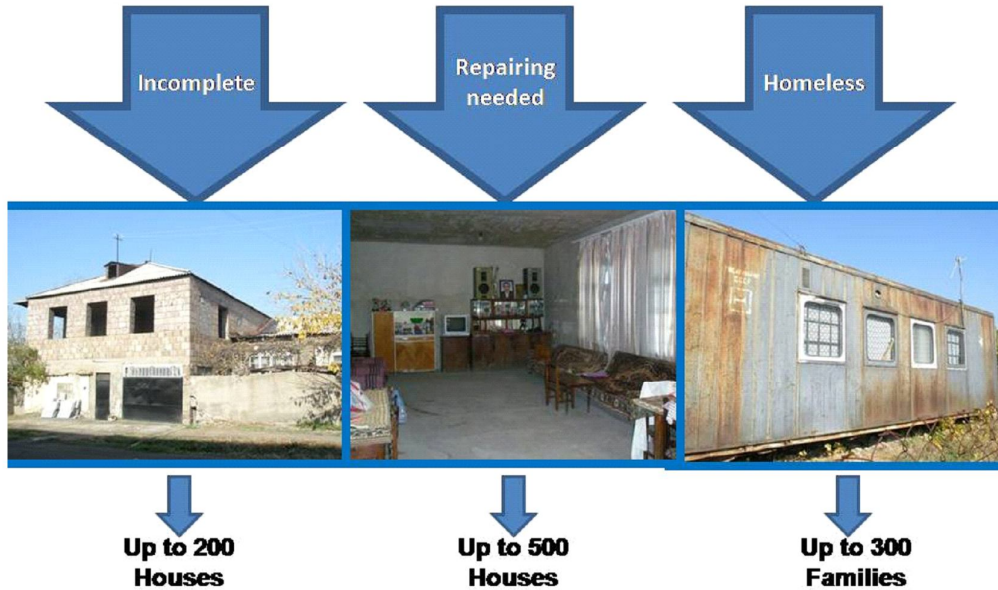

Starting June 2010, Habitat Armenia will launch a new home renovation project in the village of Nor Kharberd, a mere 15 minutes' drive off Yerevan.

Housing Renovation project in Nor Kharberd community aims at providing the most cost-effective solutions to help 22 families in need of improving their housing conditions to conduct construction works.

These families will work hand in hand with their community members, as well as with local and international volunteers, who will help Habitat partner families mostly in roof repairing and internal repairing works.

However, the need in the community exceeds those 22 families targeted for the initial phase of the project. The figure below presents an idea of the housing need in the village of Nor Kharberd.

Types of Housing Need in Nor Kharbert

YOUR SUPPORT COUNTS

Enable us serve more families

To be able to continue Habitat's mission in Armenia and serving other families, HFH Armenia is looking help among its friends and partners.

Our target is to serve 200 families by the end of this fiscal year, meaning by the end of June 2010. We believe that together we can achieve that. Your prayers and Tithes enable us achieve our goal!

We welcome any size of contribution which will be immediately used towards serving families.

Let's stay in touch!

Befriend us on Facebook. In addition to connecting with fellow Habitat Armenia supporters, you will also receive periodical updates of our activities and goings-on.
